We manufacture & export globally approved and certified Medical Wear & Workwear apparel. We work with sustainable and compliant suppliers for the sourcing of all our technical fabrics.

Medical Apparel

+ Infection Control Apparel

**Personal
Protection first,
So you can do
what you do
best.**

300,000 Pcs/month

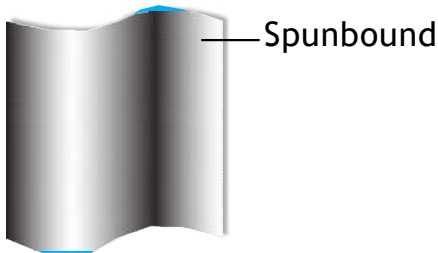

Installed Capacity

Protection in a range of three styles and fabrications. All certifications secured for export.

1. Non Sterile Examination Gown

Materials description:
Spunbond Polypropylene

Standard, cost-effective and comfortable

For basic infection control, this non-woven fabric bonds fibers together to form a single layer that is appropriate only for very minimal fluid exposure.

Style Description

Neck and waist ties, elastic wrists, flat pack
Product is C€ marked

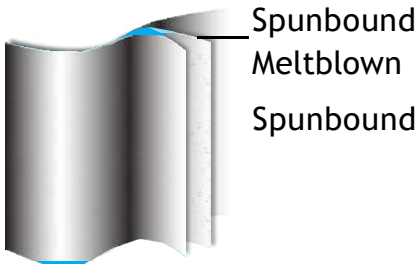

Cat. No.	Size	Color
IDEG2023	X-Small	Blue & White
IDEG2023	Small	Blue & White
IDEG2023	Medium	Blue & White
IDEG2023	Large	Blue & White
IDEG2023	X-large	Blue & White
IDEG2023	XX-large	Blue & White
IDEG2023	XXX-large	Blue & White

2. Non Sterile Surgical Gown

Materials description:

Spunbond Polypropylene SMS Material

Balanced mix of protection and comfort
Strong and breathable, Spunbond/Meltblown/Spunbond (SMS) is a multi-layer fabric composed of inner layers of meltblown polypropylene between outer layers of spunbond polypropylene that is ideal for extended wear. Light/medium weight SMS is appropriate for low amounts of fluid and heavy weight SMS may be appropriate for moderate contact with fluids.

Non-sterile Surgical gowns Designed specifically for non-sterile surgical, these gowns are constructed from a mid-weight SMS fabric.

Style Description

Neck and waist ties, Knitted Rib Wrists, flat pack
Product is  marked
